

For those patients who do not have dental insurance, we offer the Southridge Dental Plan. An innovative discount dental plan that provides members with significant savings on the most commonly needed dental procedures. Our plan allows you to get the preventive care you need to minimize costly problems in the future. With the included emergency exams, Southridge Dental is there for you when you need them the most.

The Southridge Dental Plan is not insurance. For an annual membership fee, you receive your semi-annual cleanings, necessary digital x-rays, exam and a preferred discount off our normal fees. Our plan allows you to avoid the high costs of semi-annual cleanings and provides substantial savings on your comprehensive treatment needs. An added benefit is you can receive discounts on cosmetic procedures as well. Veneers and teeth whitening are now available to you at preferred rates. There are no waiting periods, deductible, yearly maximums, claim forms, pre-authorized forms and no pre-existing conditions limitations.

Making comprehensive, preventative dentistry affordable to everyone is the goal of the Southridge Dental Plan. No insurance company is involved so you and your doctor determine what is needed to insure your total oral health. All of the services we offer are covered under the plan and we can start treatment immediately. Now is the time to create the smile you have always wanted.

Call our front office today for more details.
